Marriage Licence*

My subtitle if needed

Boxuan Yi

September 19, 2024

First sentence. Second sentence. Third sentence. Fourth sentence.

```
data_raw <- read_csv(file = here("data/data_raw.csv"))
```

```
Rows: 544 Columns: 4
-- Column specification --------------------------------------------------------
Delimiter: ","
chr (2): CIVIC_CENTRE, TIME_PERIOD
dbl (2): _id, MARRIAGE_LICENSES

i Use `spec()` to retrieve the full column specification for this data.
i Specify the column types or set `show_col_types = FALSE` to quiet this message.
```

```
data_raw |>
  ggplot(mapping = aes(x = CIVIC_CENTRE)) +
  geom_bar()
```
